

Lunch with guest speaker
Dr. Shoshan Haran
in conversation with Sandi Firth

Dr. Haran is the founder and president of Fair Planet, a global NGO helping smallholder farmers in Africa overcome hunger and poverty through climate-resilient seeds and improved farming practices. Following the October 7, 2023, Hamas attack on her community of Be'eri, in which she lost her husband and younger sister, she was held hostage in Gaza for 50 days alongside family members. Despite this personal tragedy, she continues to demonstrate remarkable resilience and dedication to humanitarian causes and advocating for hostages worldwide.

Thursday 10 December 2026 at **12pm prompt**
